

Dallas Songwriters Association Presents
a Songwriting Workshop with

Richard Leigh

Songwriting Workshop

This three-time Grammy nominee and inductee of the Nashville Songwriters Hall Of Fame, explores the techniques and cognitive tricks you can learn to:

- Improve your odds of writing competitive songs
- Tap your personal creative well
- Gain perspective on co-writing and songwriter's etiquette
- Improve productivity
- Conquer writers-block

You'll begin to look at the process of producing these musical short stories in a new light. You'll see what little miracles they actually are and why some of them surmount seemingly impossible odds to make their way from the songwriters pen, on to the radio, and finally into our lives.
